This is a peer-review report submitted for the paper "Risk Factors of SARS-CoV-2 Infection: Global Epidemiological Study".

presents all the data appropriately and discusses the data rationally. It will be a very interesting and vital reference paper to all those who are working on this topic. I want to see the paper published soon. Best wishes.

Round 1 Review

General comments

This paper [1] is nicely written by the author, and it is indeed a very important work on SARS-CoV-2 infection. The author

Conflicts of Interest

None declared.
