This is the peer-review report for “The Impact of Rural Alimentation on the Motivation and Retention of Indigenous Community Health Workers in India: Qualitative Study.”

Round 1 Review

General Comments

This paper [1] has given the impression that the researcher has done thorough homework before starting the research and it is evident in the paper. Case methodology and thematic analysis are a few of the approaches that depict the quality of the paper. Overall, as a reviewer, it is my opinion that the research paper is of quality.

Specific Comments

1. A few more factors like government initiatives should be included in studying the impact on the motivation and retention of community health workers.

Conflicts of Interest

None declared.

Major Comments

1. I feel that the analysis also can include education as a parameter.
2. The thematic analysis is one of the strengths of this research and is appreciated.

Minor Comments

1. Common wording should be used in every section of the paper, like qualitative case research methodology and qualitative case research.
