Keywords: periodic health examination; PHE; preventive health services; routine health checkups; Jordan; cross-sectional study

This is a peer-review report for “Determinants of Periodic Health Examination Uptake: Insights From a Jordanian Cross-Sectional Study.”

2. Why was a convenience sampling technique employed?
3. “All collected data are treated with strict confidentiality.” Some language corrections are required.

Round 1 Review

Specific Comments

Major Comments

1. In this manuscript [1], write in detail about the data collection procedure.

Minor Comments

There are a lot of formatting issues; many things seem copied and pasted.

Conflicts of Interest

None declared.
