*This is a peer-review report for “Willingness to Pay for the COVID-19 Vaccine and Its Correlates in Bangladesh: Cross-Sectional Study.”*

2. As around 50% of the people are not interested in paying for the vaccine, this result should be considered with caution.

---

## Round 1 Review

### Minor Comments

1. In lines 79 and 80 of the manuscript [1], it is confusing why this wouldn't be considered nationally representative if the data collection was conducted online.
